Vision	By 2035, Caledon will grow to a population of approximately 150,000. As we grow, it is vital that Caledon's rural and agricultural roots remain strong features of our identity. We will embrace growth that is intentional and sustainable, and that honours the natural heritage that makes Caledon unique. This approach will enable us to provide a choice of lifestyle, amenities and services for those that live, work or visit here. We will preserve green spaces and the personalities of the villages and hamlets that define Caledon today, while preparing for the larger, more diverse community we will become, to ensure a high quality of life for future generations that will call Caledon home. **Caledon offers the best of rural and urban life for everyone**			
Priorities	**Enhanced Transportation and Mobility**	**Community Vitality and Livability**	**Environmental Leadership**	**Service Excellence and Accountability**
Outcomes	• New urban development enables diverse and accessible modes of transportation including public transit • Caledon has a safe and reliable transportation network • Caledon has a renowned trail network that connects communities	• Caledon attracts and supports a local economy that aligns with our vision for the community • Caledon's villages and hamlets are vibrant and welcoming to businesses, residents and visitors • Caledon offers services and programs that support a healthy, engaged and inclusive community • Caledon builds complete communities that support opportunities for people of all ages and abilities to access the necessities for daily living	• Caledon is on target to becoming carbon net-zero by 2050 • Caledon protects, enhances and connects its natural heritage systems while establishing urban green systems • Caledon ensures new developments reflect efficient, green and livable design	• Caledon continuously improves the way we deliver service • Caledon invests strategically to ensure fiscal responsibility • Caledon ensures transparency in its decision-making • Caledon attracts and retains employees that reflect our commitment to service and innovation • Caledon becomes a single tier municipality while ensuring service continuity

DRAFT
